Dear Friends of the Max M. Fisher College of Business,

Welcome to the Office of Career Management’s 2017-2018 Annual Report. For the past several years I have ended this introduction with the words “I look forward to reporting back to you next year with even greater results.” I am pleased to say that those words have never been more true than in this report! Here are several improvements from last year:

• The median base salary for MBA graduates increased 4 percent to $100,000.
• The average base salary for BSBA graduates increased in nine of 11 academic majors.
• The number of BSBA graduates reporting their employment status increased by 13 percent, and those reporting employment remained above 80 percent.
• The number of MBLE graduates securing job offers within three months of graduation rose to 100 percent.
• The median base salary for MHRM graduates increased 6 percent to $77,000, and for MAcc graduates by 4 percent to $53,000.
• The Financial Times’ ranking of master of finance programs continues to place Fisher’s career management services fifth among all programs nationally (public and private) for its effectiveness in job-search coaching.
• The number of undergraduate students participating in Fisher career fairs, combined with the number of individual career-consulting appointments, rose 6 percent to 8,831.
• Six new companies were included in our top-hiring list (10 or more hires) for the first time.

There are a number of factors that contributed to these improvements, not the least of which are great students, equally great academic preparation, and an economy that held steady during a politically charged year. Additionally, our team focused significant effort on technology initiatives that provided our students with increased preparation for a recruiting landscape that is using technology as a primary means of connecting with candidates (see pages 11-12). We also increased our efforts in forging relationships with companies within the technology sector (see page 13).

Moving into 2018-2019, we will continue enhancing our student-engagement efforts by focusing on five social media platforms that students have identified as being of higher priority when connecting with the Office of Career Management. We have also joined a nationwide network of colleges and universities utilizing a career-development platform called Handshake (see page 11). We anticipate a significant increase in the number of employers using Handshake to connect with Fisher students in the coming year.

I know you will enjoy reading about the success of Fisher students in this report. Thank you for your continued support of our services and your active participation in our programs. You deserve a pat on the back for all the ways you support student success through teaching, advising, mentoring and coaching. And, I will say once again, “I look forward to reporting back to you next year with even greater results!”

Best regards,

Jeffrey D. Rice
Associate to the Dean for Staff Professional Development
Executive Director
Office of Career Management
Our Mission

The Office of Career Management will provide highly personalized services to develop the best prepared job seekers and be every employer’s favorite place to recruit.

The Office of Career Management hosted 3,868 interviews during the 2017-2018 school year.

**Fisher’s Full-Time MBA program ranks 3rd for percentage of students employed within 3 months of graduation among public universities nationwide.**
(U.S. News & World Report, 2019)

**Travel grants were issued by the Office of Career Management.**

**Fisher’s Specialized Master of Finance program is ranked 3rd among U.S. public schools, 3rd for value for money, and 5th for career services.**
(Financial Times, 2018)

**Our Working Professional MBA Program ranks 9th nationwide.**
(U.S. News & World Report, 2019)

**In 2017-2018:**

- 686 # of companies engaged with the Office of Career Management
- 963 # of Peer Career Coach Walk-Ins
- 192 next day interviews were conducted after the Fisher Spring Internship and Job Fair
Fisher has 4 undergraduate majors that rank in the top 15!

(U.S. News & World Report, 2018)

**178**
Companies attended the Fisher Fall Career Fair.

**138**
Companies attended the Fisher Spring Internship & Job Fair.

We partner with many student organizations and councils, and take an active role in supporting student events and celebrations.

90 students signed up to use our interview rooms to study for their finals during fall semester.

Office of Career Management

TECHNOLOGY INITIATIVES

INTRODUCING HANDSHAKE

Fisher’s Office of Career Management and The Ohio State University are excited to make the move to Handshake, a modern career-development platform available to all students and alumni. For the first time, Fisher and Ohio State are sharing the same career management software in order to create a career-services environment in which students and employers can freely navigate the entire set of opportunities and talents available at The Ohio State University.

Handshake has become an employer favorite for college recruiting. Handshake makes it easy for companies to post jobs and internships, set up on-campus interviews and register for career fairs. We anticipate a significant increase in the number of employers using Handshake to connect with Fisher students in the coming months.

CHINESE VIRTUAL CAREER FAIR

The Office of Career Management, in partnership with the China Global Gateway, held its first-ever Virtual Chinese Career Fair connecting 86 undergraduate and graduate students as well as alumni with 14 top-notch Chinese companies. Students were able to chat live, submit résumés, and interview on the spot for positions through a webcam.

WORKING PROFESSIONAL CAREER STRATEGY MODULES:

WPMBAs participated in a summer-long virtual module series on Carmen focused on gaining and developing job search related skills. Students engaged with recorded video lessons and completed the corresponding job search skill assignment to receive feedback from their Career Consultant based on their submitted assignments. These students identified their career interests and career related values, developed an effective approach to networking conversations, created a strategic job search strategy and refined their resume for their career goal. On their own time and in their preferred location students were able to make active strides in their job search.

QUINNCIA

The Office of Career Management’s graduate team began incorporating a virtual element to it’s award-winning Career Core during the summer of 2018.

Quinncia is an online, artificial-intelligence-based platform designed to help students improve their interviewing skills. It uses state-of-the-art technology to generate tailored interview questions from a student’s résumé and provide a detailed analysis of their answers. It compiles a student’s rate of speech, use of “filler words”, communication style, eye contact, expressiveness and emotions into a composite interview score. Upon completing an interview, the student’s score and interview footage is submitted to their career consultant who can provide personalized feedback for each question.
In an effort to increase access to job-search strategies and resources, the Office of Career Management launched in Summer 2018 an online version of BUSADM 2601: Job Search Strategies and Transition to Work.

In its inaugural session, 20 students enrolled in the course. The online version features guest speakers and recruiters from previous semesters of the in-person version of BUSADM 2601, interactive assignments on video interviewing and LinkedIn through peer review, discussion boards on branding and job negotiations, and personalized job-search advice and feedback from course instructor Lauren Kume.

Students enrolled in the course become QUIC-certified and have the option to complete their certification via distance. To prepare for the launch of the online version, Lauren attended the Course Design Institute (CDI) through the University Center for the Advancement of Teaching. CDI provides participants with the tools, time and support they need as they work to build or rebuild effective, student-centered courses. The online version of BUSADM 2601 will be offered year-round, and the goal is to increase enrollment to 50 students for Summer 2019.

As part of the QUIC program, international students are also required to complete an International Student Workshop. Previously held in-person, the online version of this workshop was launched in January 2018 to provide flexibility and increased access for students.

The online version is facilitated through Carmen and covers many topics including the CPT process, employer expectations, and job search strategies for international students. Additional content includes an employability assessment, resources available to students, and the opportunity for students to test their knowledge. Since the launch in January, 99 students have completed the online workshop which is an increase of 215 percent from in-person attendance during the same time period in 2017.
Mandy Williams and Nancy Gilbertsen attended the Amazon MBA Career Services Summit, an event designed to provide Amazon target schools with the opportunity to learn even more about the company’s recruiting and hiring needs and processes for the academic year. This two-day event, which took place in Seattle, included opportunities to learn about four key areas: Amazon’s engagement story; application and selection processes; the interviewing process; and how the company will choose and place candidates in select MBA roles this academic year.

MBA SEATTLE TREK

Alex Toomey attended the inaugural MBA Seattle Trek, along with 15 Fisher MBA students on this exciting journey. The Seattle area is quickly developing into a true tech rival to the San Francisco Bay Area, and it’s our hope that visits like these will help us continue to expand our geographic footprint in this region.
The Office of Career Management Future Innovation Team, led by Sarah Steenrod and Jamie Mathews-Mead, hosted an “Innovation Day” that was attended by all members of the career management staff. The office partnered with Paul Reeder and Jenny Heckscher from Ohio State's Center for Innovation and Entrepreneurship to create a dynamic agenda allowing all participants to immerse themselves in discussions and activities regarding the future of continuous improvement, creativity and innovation in the career-management space. To ensure we incorporated the voices of our student and employer partners, we invited undergraduate student Tyler Allen, MBA student Marisa Ratajczak, and corporate representative Kelly Spencer, recruiter with Greif, to participate.

SPECIALIZED STUDENTS RÉSUMÉ INTAKES

In order to provide highly personalized services to develop the best-prepared job seekers, the Office of Career Management launched an initiative to further support the 218 incoming specialized master’s students with their internship/job search.

Each student met with a graduate assistant during a pre-assigned two-week time period to review résumés and answer career-fair-related questions. This ensured the students had an in-person appointment prior to the Fisher Fall Career Fair and other recruitment events.

CAREER CONNECTION TRAVEL GRANT

The Fisher Career Connection Travel Grant was established as a financial resource to support off-campus job-search efforts of Fisher students. Its purpose is to provide grants to all students attending approved events. Examples of off-campus activities in which undergraduate and graduate students can apply for grants include professional conferences such as a job fair or career-networking events, career fairs at other colleges or universities, or city or company sponsoring a job fair outside of Columbus.

Diversity Conferences and Job Fairs
- American Universities' China Association Career Fair
- Asian MBA Conference
- Council of Supply Chain Management Professionals National Conference
- Forté Foundation Women’s Leadership Conference
- National Association of Women MBAs
- National Black MBA Career Conference
- National Society of Hispanic MBA Conference (Prospanica)
- Reaching Out Conference
- Veterans MBA Conference

Industry “Treks” and Immersions
- Chicago Financial Services Trip
- MBA Marketing Hop
- MIT Sloan Sports Analytics Conference
- New York City Financial Services Trip
- Seattle Industry Trek
- Silicon Valley Trek
- University of Dayton RISE Conference
- University Private Equity Summit
GRADUATE STUDENT CAREER FAIR

In an effort to meet the unique needs of Fisher’s various graduate student populations, the Office of Career Management organized the first joint Fisher Graduate Student Career Fair. This event was held concurrently during the Fisher Fall Career Fair and resulted in a separate space within the Ohio Union for students in the MBA, MHRM, MACC, SMF and MBE programs along with the employers interested in recruiting them. Organizations represented included Amazon, Anheuser-Busch, Duff & Phelps, Eaton Corporation, the Federal Deposit Insurance Corporation, Ford Motor Company, Gap, Highmark Health, Huntington National Bank, Indiana University Health, Johnson & Johnson, Lancaster Pollard, Liberty Mutual Insurance, Marathon Petroleum Company, Nationwide, Nestlé USA, Peoples Bank, PepsiCo, PPG Industries, Republic Services, Scotts Miracle-Gro, T-Mobile, Verizon Wireless, The Wendy’s Company, and Wright Patterson Air Force Base. Employers and students enjoyed a more intimate environment targeted toward these niche populations that was more conducive for discussions and networking. In total, these 25 employers had the opportunity to interact with over 240 students who attended.

DIVERSITY CONFERENCE PREPARATION WORKSHOP

In partnership with the National Black MBA Association, Prospanica and Fisher’s Office of Diversity and Inclusion Student Services, the Office of Career Management spearheaded an interactive workshop designed to prepare all graduate business students for participation in a series of fall semester national diversity career conferences. Students attended concurrent breakout sessions on a variety of topics, including:

- Selling your experience and speaking with recruiters
- Researching companies and ‘working’ the career fair
- Overcoming anxiety and the imposter syndrome

In addition to benefitting from workshop content, students also had the opportunity to have their résumés reviewed and interact with representatives from corporate sponsor companies. Over 120 students attended the event, along with community members of National Black MBA Association and Prospanica. Feedback from attendees was overwhelmingly positive.

CAREERS IN SUSTAINABILITY PANEL

The Careers in Sustainability Panel, a collaborative effort between Fisher College of Business, the College of Food, Agricultural, and Environmental Sciences (CFAES), and Net Impact, took place October 23, 2017, on Ohio State’s campus.

The Office of Career Management invited eight panelists to share their experiences working at businesses with a sustainability focus. Panelists represented a variety of career paths and industries, including IGS Energy, Jeni’s Splendid Ice Creams, Nationwide, Ohio Health, and Owens Corning. Sixty-two students from Fisher and CFAES attended the event to learn about opportunities in this field of interest.

CAREERS IN BUSINESS EXPLORATION PANEL

The Careers in Business Exploration Panel took place November 1, 2017 in the Mason Hall Rotunda. Intended to provide an opportunity for first and second-year students to learn about Fisher’s specializations, the event hosted eight upperclassmen who represented the college’s different majors by serving as panelists. The panelists provided information about their specialization, student organization opportunities, internship experiences, and words of advice. The Office of Career Management collaborated with the Peer Advisors, Peer Impact Consultants, Peer Career Coaches, Fisher Citizenship Program, Business Scholar’s Program, and BA1100 courses to host this event.
The Qualified Undergraduate Interview Candidate (QUIC) program was distinguished as a finalist for the Career Services Excellence Award at the annual NACE Conference in June 2018. The award recognizes excellence in career services best practices.

Audrey Bledsoe, Assistant Director for Undergraduate Career Services and Education, was honored with the Fisher Staff Award at the Fisher End-of-Year Recognition Event. Audrey has enhanced the quality of students’ Fisher experience for more than 9 years in her roles as GAA for the Office of Career Management, Academic Advisor in the Undergraduate Programs Office, and her current role in the Office of Career Management.

Courtney Russell (BSBA May 2018), Front Desk Student Assistant for the Office of Career Management, won the Undergraduate Student Employee Award at the same event. Prior to her current role, Courtney served as the Career Fair Intern for two years.

MARGIE BOGENSCHUTZ FEATURED IN HIRE BIG10+ WEBINAR, “BEST PRACTICE DISCUSSION: FIRST DESTINATION SURVEYS”

Margie Bogenschutz, Senior Director of Undergraduate Career Management and Recruitment, represented the Office of Career Management and The Ohio State University during the Hire Big10+ Webinar on First Destination Surveys.

She shared the office’s best practices of partnering with the senior capstone class to collect data through a required assignment, as well as the use of Fisher Career Data Central (FCDC), a platform provided by 12Twenty, to collect data and provide students with access to data that could help with their own job searches.

KATIE REYNOLDS RECEIVED THE COYKENDALE RISING STAR AWARD

Katie Reynolds, Assistant Director for Undergraduate Student Career Development, was named the recipient of the Coykendale Rising Star Award. The award is presented annually to a staff member, with less than five years of experience at Fisher, who demonstrates excellence in their work and has integrated one or more of the college’s core values into their impeccable daily performance.

AUDREY BLEDSOE AND COURTNEY RUSSELL RECEIVED FISHER STAFF AWARDS

Margie Bogenschutz, Senior Director of Undergraduate Career Management and Recruitment, represented the Office of Career Management and The Ohio State University during the Hire Big10+ Webinar on First Destination Surveys.

The Qualified Undergraduate Interview Candidate (QUIC) program was distinguished as a finalist for the Career Services Excellence Award at the annual NACE Conference in June 2018. The award recognizes excellence in career services best practices.

Employer TESTIMONIAL

“The Career Management team at Fisher has been fantastic. Quick to respond, they bend over backward to accommodate requests, and we are appreciative of that.”
