ASSIGNMENT WEIGHTS

<u>Assignment</u>	<u>% of grade</u>
Group cases	60%
Final	20%
Class participation	10%
Peer review	5%
Guest lecture question	5%

Group case assignments (60%)

Case assignment questions will be graded on the basis of:

- 1) Answering the question directly and succinctly
- 2) Supporting your answer with evidence from the case or supplementary information provided
- 3) Embracing the ambiguity—or—open ended nature of the question and taking a distinct position

In essence, tell me in the first sentence (one sentence) what you think. This thesis sentence *can* include supporting reasons but it *doesn't necessarily have to*. Next, support your answer with facts from the case, if supplementary files are provided feel free to use them as support. Finally, recognize that the case questions are open-ended and ambiguous *by design*. As such, you must embrace the uncertainty and take a position. Each case questions should be answered in a sentence up to a few [2] paragraphs. Do **not** write multiple page answers-or-argue from both sides.

Class participation (15%)

Class participation will be graded. The grade will be assigned based on the *quality* of the contribution **not** the quantity. To ensure that you receive the appropriate credit for your class contributions please **E-MAIL me in CARMEN a bullet point summary of your contribution(s) to the class discussion each week**. The rationale for doing so is two-fold: 1) it provides me with an objective basis to evaluate your contributions and 2) it provides objective evidence to discuss your contributions should there be a disagreement about the participation grade. In summary, I value collecting evidence to add objectivity to my decisions.

Qualitative judgements are by their very nature *subjective*.

I utilize Top Hat to: 1) gauge whether you understand and can apply a concept we discuss (a learning “speedbump”) 2) to solicit your opinion (no right or wrong answers) and 3) level the playing field for introverts. I review both participation and % correct (when applicable) and factor TopHat into my final assessment of participation.

Final (20%)

The final exam will be administered **December 4, 2018** during our regular class time (4:30-6PM) and classroom (Gerlach 365). The final exam will be comprehensive (covering lecture/discussion, articles & case material) and consist of 45 questions. Please bring a calculator. Do **NOT** bring your mobile phone.

Guest lecture question (5%)

E-mail me (schneider.275@osu.edu) an investment or career related question for our lecture guest.

FISHER HONOR CODE

As a member of the Fisher College of Business community, I am personally committed to the highest standards of ethical behavior. Becoming a leader comes with great responsibility and I am ever mindful of my actions and the impact they have on my community. I hold myself to the highest standards and will adhere to the following tenets:

Act with Honor – My actions will be guided by what is honorable and moral, and not just what leads to success. I pledge to act with honor and integrity in both my academic and professional career, as well as in my social life.

Respect for All – I understand that we live in a large and diverse community, and as a member, I acknowledge the richness of this community and pledge to be inclusive and respectful of one and all. I will be civil and courteous in my words and actions toward others.

Give Back – I recognize that I would not be successful without the help of so many others. Implicit in this belief is my responsibility to help others reach their own goals and ideals. As a leader in the community and business environment, I pledge to live by these principles and celebrate those who share these ideals.

Success is always shared.
