THE INTERNSHIP ADVANTAGE

“I feel that Fisher prepared me well for this internship. I had all of the knowledge and skills that I needed to do my day to day tasks without a problem, and I was more than prepared for anything that was thrown at me this summer. I believe my success this summer with Quicken Loans is thanks to the practical education I received through my classes with Fisher.”

JORDAN KAPLAN, Quicken Loans

“A positive attitude helped me succeed. Coming in each day with a positive attitude and the motivation to learn will not only make your internship experience completely worthwhile, but it will also show those you work with that you genuinely want to be there, and care about the company’s best interests.”

KELLY YEE, Abercrombie & Fitch

“The education that Fisher provides is probably the most critical factor that prepared me for success. They also have an amazing career management team that truly prepares you for ‘what to expect’ and how to successfully interact in a professional environment. Furthermore, when you have Fisher on your resume, the employers know you have what it takes to be a successful intern.”

ANDREW STRUTZ, Hexion
