HOW CAN YOU CHANGE THE LIFE OF THE NEXT VISIONARY CEO OR ENTREPRENEUR?

SCHOLARSHIPS.

Donor support of scholarships provides Fisher College of Business students with access to a premier business education, vital applied learning opportunities and an incredible network of alumni, friends and business leaders.

Scholarships represent transformational lifelines to critical professional development, and they equip Fisher students with the education, skills and training to improve their lives and the lives of those closest to them.

Consider investing in Fisher students by supporting an existing scholarship or establishing a fund that aligns with your personal passions. Your support can provide talented and deserving students at Fisher opportunities to become the next generation of business leaders equipped to positively impact their communities and our world.

“I’m grateful for the huge impact of scholarships in my life. They are helping me and my family financially while allowing me to focus on my education, my involvement on campus and my future.”

Emily Rouse
Class of 2018
As you consider the impact your support can have on the lives of Fisher students, the college provides two options for creating your own scholarship fund.

**Endowed scholarships** provide Fisher with a self-renewing resource that the college holds in perpetuity. These gifts impact countless students year after year and create a lifelong connection and legacy of philanthropy at Fisher and The Ohio State University.

**Current use scholarships** allow Fisher to distribute funds immediately to eligible students. This flexibility equips the college to make prompt decisions to recruit and retain the very best students.
