

## **Strategies for Succeeding in Tough Economic Times A Series of Round Table Discussions**

During tough economic times, companies succeed through implementing strategies that provide them with the competitive advantage necessary to stay ahead. The COE will offer member companies a series of Round Tables, geared toward maintaining this competitive advantage through the current economic difficulties.

The format will include an expert host on the selected topic, a presentation and round table discussion, where attendees will receive timely information and solutions to the challenges and opportunities companies are facing in today's daunting economic climate.

The first in our series:

Monday, November 17, 2008
