Office: 832 Fisher Hall
Email: erel@fisher.osu.edu
Office Hours: Mondays 3:00-4:00pm or by appointment
Course Webpage: on Canvas

Course Description
This course will introduce students to financial institutions and their important economic function. The course will examine the structure and operation of financial institutions in the U.S., with particular attention paid to the various risks and complex challenges facing these institutions. While there are no easy solutions to the challenges and problems faced by financial institutions, we will cover these issues in depth, with the objective of developing a solid understanding of them.

Prerequisites
There are no official prerequisites for this course. Students are expected to have a basic knowledge of finance, accounting, and statistics.

Required Reading
Course Packet [referred to as “CP” below], available at HBS Publishing. Please follow this link http://cb.hbsp.harvard.edu/cbmp/access/71655423 and follow the instructions below:
  - Click “Register Now.”
  - Enter name, email, and educational program, and create a username and password.
  - Click “Register.”
  - Login with the username and password you just created.
  - Purchase the material.

Recommended Reading

Supplemental Readings
Articles are available on the course webpage [referred to as “CW” below]. Please see the tentative course outline below for a list. Also note that these readings are OPTIONAL.

Students are strongly encouraged to read financial press to reinforce the applicability of the topics that we cover in class.
**Pedagogy**
The course will be structured as a combination of lectures, discussions, and cases. I will post my PowerPoint slides on the course website on Canvas before each class to help you follow the lectures and take notes. Please remember that posted slides are not complete. For completeness, you should attend the lectures. Please also note that we will have a few guest lecturers throughout the semester. Please see the tentative course outline below for their names and affiliations.

**Grading**
The final course grade will be allocated as follows:

- Individual Class Participation: 5%
- Individual Assignments: 15% (5% each)
- Group Case Write-ups: 15% (5% each)
- Exam I: 30%
- Exam II: 35%

**Class Participation:** Students are expected to attend each class in a timely fashion and take part in discussions. Class participation will be graded based on my assessment of both the quantity and quality of an individual’s contribution to case and lecture discussions.

Please choose a seat for the entire term, no later than the second-class session. This makes it easier for you to interact during class discussions and easier for me to facilitate grading for class participation.

**Case Write-up:** Cases are in the course packet [CP]. You will write a case report/executive summary for three of the cases in groups. Detailed instructions with questions for each case will be posted on Canvas. Please form a study group of 3 to 5 students for the case write-up. You can work with students from the other section as well. You must give me a list of your group members by second week of classes (by January 16 at the latest). If necessary, I will assign students to groups already formed, starting with the smallest groups. However, I would prefer that you find a team yourself (please talk with friends in the same classroom as soon as you can).

All groups should come fully prepared to discuss their case solution with the rest of the class and should hand in a typed case write-up (one per team) before the class discussion starts. You should also retain a copy for yourself for class discussion.

Also, you will have the opportunity to evaluate your team members at the end of the quarter. Evaluation sheets with a detailed explanation will be posted on Canvas and they are OPTIONAL.

**Individual Assignments:** There will be three individual assignments. They will be posted on the course website on Canvas. It is very important that you complete the assignment individually. I will also post sample problems from the textbook with solutions on Canvas.

**Exams:** There will be two exams. Each exam will cover all material taught until the date of the exam. The second exam will be during Finals’ Week. It will be comprehensive in scope, including materials from every part of the course. Both exams will be closed-book. You can use nonprogrammable functions of a calculator.

**Absences and Late Assignments**
Absence from the exams will not be excused, except for the most serious circumstances. Such circumstances must be validated in writing by an appropriately accredited professional (e.g. medical doctor). Any unexcused absences in exams will result in a grade of zero. Late assignments will not be accepted for credit. As a matter of professional courtesy, please notify me in advance if you are unable to attend a particular class.
Regrading Policy

Grading errors will be corrected. All regrade appeals must be submitted within one week after the graded test is returned. Any exam submitted for regrading of a question is subject to complete regrade. As a result, the regraded score may increase, stay the same, or decrease after a careful consideration. I will not consider any regrade requests after the one-week deadline has passed.

Disenrollment Policy

Fisher College of Business strongly enforces University attendance policies. As per University rule 3335-8-33 (http://trustees.osu.edu/rules/university-rules/rules8/ru8-33.html), any student may be disenrolled from a course for failure to attend by the first Friday of the term, or by the 3rd instructional day of the term, or by the second class meeting, whichever occurs first.

Disability Services

The Office of Disability Services verifies students with specific disabilities and develops strategies to meet the needs of those students. Students requiring accommodations based on identified disabilities should contact the instructor at the beginning of the quarter to discuss his or her individual needs. All students with a specific disability are encouraged to contact the Office of Disability Services to explore the potential accommodations available to them.

Academic Misconduct

All students are expected to abide by the Fisher College Honor Code: “As a member of the Fisher College of Business Community, I am personally committed to the highest standards of behavior. Honesty and integrity are the foundations from which I will measure my actions. I will hold myself accountable to adhere to those standards. As a future leader in the community and business environment, I pledge to live by these principles and celebrate those who share these ideals.” All students are also expected to adhere to the University’s Code of Academic Integrity. Academic misconduct will not be tolerated. According to the university rules, all suspected cases of academic misconduct will be reported to the Committee on Academic Misconduct.

Tentative Course Outline

This outline is tentative and subject to change. Please refer to the course website on Canvas for updates on readings, homework problems, and case assignments. It is the students’ responsibility to check the course website for updates and announcements.

Class 1 Course Overview and Introduction

Jan 9

Topics: Course Organization and Requirements
Introduction to Financial Institutions

Recommended Readings:
Saunders & Cornett: Financial Markets and Institutions: A Risk Management Approach (“S&C”) Ch. 1
Supplemental Readings:
Some examples of recent academic research, on Canvas course website [CW]:
